

# WATERBOTICS™

2018 Summer Day Camp Program

FUN for Middle School Girls and Boys

 **WATERBOTICS™** is an innovative, underwater robotics program that challenges students to design, build, program, test, and redesign underwater robots made of LEGO™ and other components. Campers progress through a series of increasingly sophisticated "missions" that culminates with amazing final designs.

 **TAKE ROBOTICS TO NEW DEPTHS** Whether your child currently takes robotics courses, or they are new to robotics and are looking for their next great challenge, WaterBotics™ has it all: science, technology, engineering, and FUN!

 **APPLY TODAY!** Application's available at [mcallenpublicutility.com](http://mcallenpublicutility.com) and must be submitted by 6/12/18 at McAllen City Hall-MPU Administration or [jsalinas@mcallen.net](mailto:jsalinas@mcallen.net). Accepted participants will be contacted by 6/19/18.

**AGES:** 11-15 years old **DATES:** July 9 - July 13 **TIME:** 8am -3pm daily  
**LOCATION:** South Texas College Pecan Campus
